

# Comet 46P/Wirtanen in December 2018

© 2018 Planétarium Rio Tinto Alcan / Espace pour la vie

**Notes :** Comet positions are shown for 7 p.m. (Eastern Standard Time) on dates indicated. The tail of the comet is represented in the correct orientation, but its actual length and visibility is dependent on numerous factors that are difficult to predict. The faintest stars shown are seventh magnitude.
