

ADAPTOLOGISTS

RANA'S MISTAKES

Birds, reptiles, fish, mammals, amphibians, invertebrates... It's not always easy to know what's what! Rana tried to match up some of the animals at the Biodôme by category, but I'm not sure she got it right. Can you help her? Put an "X" through the animals that she's put in the wrong place, draw them in the right place and write their names on the line.

Quick! Put the animals
in the right place!

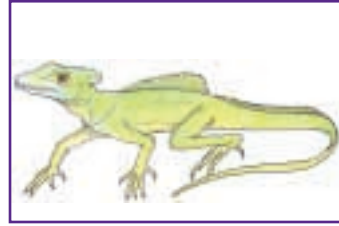

MAMMAL NEIGHBOURHOOD

Canada lynx

King penguin

Green basilisk
