

Comet C/2022 E3 (ZTF) in February 2023

© 2023 Planétarium Rio Tinto Alcan / Espace pour la Vie

Note: The position of the comet (+) is shown for 7 p.m. (Eastern Standard Time) on the indicated date. The ion tail of the comet is drawn in its correct orientation, however its actual length and visibility depend on a number of factors that are difficult to predict accurately. The faintest stars are magnitude +6.5.
