

LYDIA KÉPINSKI, DJ

Lydia Képinski, the *enfant terrible* of the Quebec song, has under her belt an EP named “EP”, a first album titled “Premier juin” and a new opus: “Premier juin remix”, an electronic album produced by Montreal DJs. In the wake of her new electronic friendships, Lydia is practicing mixing DJ sets in private as well as in public, often under the name Cheval de prewalski (or also known as Cheval).

For Researchers' Night, she plans to play music to the rhythm of the 90s and maybe even disco... for the scientist souls who wish to dance!
